AC/AL STUDIO  
FRANÇAIS / FRENCH - 2012

Diplômés d'ENSCI-Les Ateliers, Amandine Chhor et Aïssa Logerot ont commencé leur carrière en travaillant cinq ans pour des agences d'architecture et de design, et des entreprises comme Hermès. De 2009 à 2012, ils ont collaboré à des projets de design contemporain utilisant des techniques artisanales durables dans des pays en développement comme le Cambodge, le Maroc et le Cameroun. Le duo a fondé son propre studio de design à Paris en 2013 avec l'objectif de créer des objets qui ont une histoire à raconter et à cultiver un équilibre parfait entre la fonction, la forme et les techniques de production. Passionnés pour les matériaux, l'artisanat et les procédés de fabrication industrielle, ils dessinent des produits et des meubles qui valorisent l'utilité et la rigueur de la simplicité.

*« Les objets que nous créons reflètent l'intérêt que nous avons pour les matériaux et les techniques de fabrication, qu'elles soient artisanales ou industrielles. Complémentaires dans notre travail et partageant une même vision du design, nous avons travaillé sur une gamme de mobiliers pour Petite Friture, initialement pensée pour l'artisanat, que nous avons ensuite adaptée afin de la produire en série. » AC/AL STUDIO*

*After graduating from ENSCI-Les Ateliers, Amandine Chhor and Aïssa Logerot kick-started their careers working in architecture and design studios for five years, as well as for companies such as Hermès. Between 2009 and 2012, they collaborated on contemporary design projects, using sustainable artisanal techniques, in developing countries such as Cambodia, Morocco and Cameroon. The duo founded their own design studio in Paris in 2013, with the aim of creating objects that tell a story and achieve a perfect balance between function, form and production technique. Passionate about materials, arts and crafts, and industrial manufacturing processes, they design products and furniture that are functional yet simplistic.*

*« The objects we create reflect the interest we have in materials and manufacturing techniques, whether craft or industrial. As we are complementary in our work and share the same idea on design, we have worked on a range of tables for Petite Friture, initially thought for crafts, and today re-adapted to be produced in series. » AC/AL STUDIO*

### **HOLLO...**

Amandine Chhor et Aïssa Logerot ont utilisé de la bande d'acier pour développer une série de tables aux lignes rythmiques. Avec leur allure simple et solide, et par ailleurs leur stabilité et leur revêtement époxy, les tables HOLLO s'adaptent à un usage intérieur comme extérieur.

#### **VU PAR SON DESIGNER :**

« La gamme HOLLO joue avec les vides, les lignes rythmiques et les surfaces pleines ; elle saisit notre regard et le laisse s'échapper. Simple et mono-matériau, elle utilise les codes industriels et s'efface derrière l'usage et la fonction. »  
AMANDINE CHHOR & AÏSSA LOGEROT

*Amandine Chhor and Aïssa Logerot used a band of steel to develop a series of tables in rhythmic lines. Their simple and solid allure, combined with their stability and epoxy coating mean that the HOLLO tables can be used both indoors and out.*

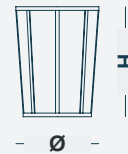

#### **ACCORDING TO ITS DESIGNER:**

« The HOLLO range plays with gaps, rhythmical lines and full surfaces : they alternatively catch our eye, and let it go. Simple, with only one material, these tables use industrial codes and give priority to usage and function. »  
AMANDINE CHHOR & AÏSSA LOGEROT
